Vehicles	A	
New Roads / Trails	NA	
Stream Crossing	NA	
Explosives	NI	

Reclamation

Activity	Condition	Comments
Revegetation	NI	To be looked at after the decommissioning works are completed.
Trenching	NI	
Drilling	NI	
Structure Removal	NI	
Waste Disposal	NI	
Other Approval Conditions	NI	

Certificate of Completion recommended <input type="checkbox"/> Yes <input type="checkbox"/> No	Compliance Review Approval recommended <input type="checkbox"/> Yes <input type="checkbox"/> No	Amendment <input type="checkbox"/> Yes <input type="checkbox"/> No
---	--	---

Notes

A helicopter visit to check the over all condition of the site was made. No changes or work since the last visit were seen. The tarps used have continued to deteriorate and blow around. This approval will expire on May 30, 2010. If an approval is not maintained all the reclamation and decommissioning work must be completed and inspected for adequacy.

Contact myself at 867 993-7302 to discuss the plans for this property and arrange a joint site visit.

Structure Removal	NI	
Waste Disposal	NI	
Other Approval Conditions	NI	

Certificate of Completion recommended Yes No

Compliance Review Approval recommended Yes No

Amendment Yes No

Notes

This site has not been active for several years and the developments on site are deteriorating. A general clean-up is needed to prevent debris from blowing away. There are numerous 45 gallon barrels on the property. They range from empty to partially full to full and still sealed. Some leakage was observed and not all of the barrels had their bungs secured. A clean-up of any spilled fuel, oil pails, grease cartridges and greasy rags is needed.

Proper storage of fuel and lubricants is required at all times. Contact myself at 867-993-7302 to discuss the priority works that are needed at this property.
